## Summary of Alerts

Risk Level	Number of Alerts
High	0
Medium	0
Low	0
Informational	1

## Alerts

Name	Risk Level	Number of Instances
<a href="#">User Controllable HTML Element Attribute (Potential XSS)</a>	Informational	24

## Alert Detail

Informational	User Controllable HTML Element Attribute (Potential XSS)
Description	This check looks at user-supplied input in query string parameters and POST data to identify where certain HTML attribute values might be controlled. This provides hot-spot detection for XSS (cross-site scripting) that will require further review by a security analyst to determine exploitability.
